Peta Williams Consulting specialises in providing services to the arts and community services sectors.

CEOs or Managers of arts and community services sectors commonly lack time to undertake critical projects to support their core business.

This is where Peta can help ...

Support for funding and grant submissions

e.g. exploring government funding requirements, preparing grant funding submissions and acquittals

Re-framing data and information

e.g. for the purposes of strategic planning and annual reporting

Human Resources support services

e.g. Recruitment planning, identifying what's needed in terms of staffing, developing Position Descriptions

Policy review and development

e.g. looking at whether policies are working in the current climate or context; revising or creating policies as appropriate

Content creation

e.g. website copy, newsletters, media releases

Support for advocacy work

e.g. Holding community forums to find out what people need or aspire to; linking outcomes from community consultations with relevant community and government organisations to plan the next steps.

Two heads are better. Here's mine.
